

CHURCH TECH TRAINING

Saturday 25th April

10:00 - 15:30

hosted at Tayside Christian Fellowship

The team at 3:16 AVI will present a day of training for those involved with technology at church and leaders, with informative and hands on sessions.

This is an opportunity to share experience and learn from each other as well as keeping up with developing technologies.

If you are involved in sound, livestreaming, projection or are a leader at a church where technology is used, then this day is for you.
